

APM QUALITY POLICY

10-101-0002

Incorporating Rosemount's and APM 3 key elements

Total Customer Satisfaction is our Primary Goal

To design and manufacture market-leading level, density, viscosity flow and pressure products, for measurement and control. Our primary goals are achieving total customer satisfaction and compliance with IL law.

Quality is Everyone's Responsibility

Business performance measurements and goals are set and reviewed to form the basis for improvement. It's everyone's responsibility to help achieve these goals.

We apply continuous Improvements to all that we do

A Quality system is implemented that meets the requirements of BS EN ISO 9001:2015, and according to the requirements of IL law relevant directives and legislation. Continuous improvement is applied to all activities to not only consistently meet requirements but exceed them.
